## **OVERVIEW**

In 1989, the developers of the Heathrow PUD donated a 45 acre site to the Seminole County School Board for an elementary and middle school. A site plan was approved in 1991 for an elementary school. The PLI zoning classification permits both elementary and middle schools. The site is located on Markham Woods Road which is a policy constrained roadway. Public Works currently has funding allocated for improvements needed for access and safety issues for the elementary school site to resolve the "stacking" of parents' vehicles on Markham Woods Road.

In 1999 the Vision 2020 Plan was amended to address school siting issues. The Vision 2020 Plan policy FLU 1.7 was amended to state that public middle schools and high schools shall not be permitted on property located within the Wekiva River Protection Area. Staff coordinated the amendments with the School Board. At that time neither County staff nor School Board staff realized that the north 300 feet (8.7 acres) of the Heathrow school site was included in the WRPA.

The school site for Heathrow elementary and middle school has been planned since the donation of the site to the Seminole County School Board in 1989. Although the requested zoning is consistent with the Future Land Use designation, a middle school is not currently permitted in the north 300 feet of the site. Either the middle school must be constructed without using the north 300 feet or the Vision 2020 Plan must be amended to allow middle schools in the WRPA. Staff is exploring options to address this issue.

**Existing Land Uses:** The existing zoning designations and land uses are as follows:

<b>DIRECTION</b>	<b>EXISTING ZONING</b>	<b>FUTURE LAND USE</b>	<b>USE OF PROPERTY</b>
Site	Agriculture	Suburban Estates	Elementary School
North	Planned Unit Development	Planned Development	Single Family residential
South	Agriculture	Suburban Estates	Single Family

			residential
East	Planned Unit Development	Planned Development	Single residential      Family
West	Agriculture	Suburban Estates	Single residential      Family

For more detailed information regarding zoning and land use, please refer to the attached map.

## **SITE ANALYSIS**

### **Facilities and Services:**

1. Adequate facilities and services must be available concurrent with the impacts of development. The applicant has submitted an affidavit for deferral of concurrency testing. Prior to final development permits being issued, the applicant must submit for concurrency review.
2. The proposed zoning is consistent with the adopted Future Land Use designation assigned to the property and does not alter the options or long range strategies for facility improvements or capacity additions included in the Support Documentation to the Vision 2020 Plan.
3. The subject site is served by Seminole County water and sewer services.

**Compliance with Environmental Regulations:** A portion of the site, the north 300 feet (approximately 8.7 acres), is located in the East Lake Sylvan Transitional Area which is part of the Wekiva River Protection Area (WRPA). At the time of site plan review the applicant will be required to comply with all applicable Land Development Code requirements and must demonstrate consistency with the WRPA and the Vision 2020 Plan policies related to the East Lake Sylvan Transitional Area.

**Compatibility with surrounding development:** The request, as proposed, would be compatible with surrounding development and surrounding Future Land Use designations of Suburban Estates and Planned Development.

## **STAFF FINDINGS**

1. The proposed rezoning is consistent with the Vision 2020 Plan policies related to the Suburban Estates future land use designation in the Wekiva River Protection Area and the East Lake Sylvan Transitional Area.
2. The proposed rezoning is compatible with adjacent residential uses.
